Wake Up – Raising Youth Awareness on Metaverse

OUTCOMES FROM THE DESK RESEARCH

The report of the desk research, developed on the partners' countries, Spain, Greece, Cyprus, Netherlands and Poland has been finalized and translated into all partners' languages. Shortly it will be online on our website!!!!

“Teaching young people on how to use the Metaverse in a convenient way that improves their skills, makes them more participative in working towards a better society and enables them to exploit the resource according to their interests and preferences, renders the opportunity to promote active citizenship, youth's sense of initiative, entrepreneurship and even their interest into different learning fields such as science, technology, engineering or mathematics in an alternative, appealing manner”.

THE WAKE UP MODULES

(ELABORATING E-LEARNING CONTENT)

An online platform for the WAKE UP project is in progress, in the framework of the WP3, which will include the 6 different e-learning modules.

The scope of the e-learning environment is the delivery of a learning object that is specifically tailored to provide target groups with important insights for training on the Metaverse. The learning object is classified by key competences and created by converting traditional learning materials to e-learning situations, such as generating video tutorials, digital and interactive quizzes and exercises, contests, and other activities.

MODULE 1 – **Introduction· setting the scene: the context of Metaverse development**

MODULE 2 – **Professions and Entrepreneurship in the Metaverse Era**

MODULE 3 – **Management and security in a Metaverse environment**

MODULE 4 – **Metaverse in praxis**

MODULE 5 – **Youth and Metaverse**

MODULE 6 – **Training in the Metaverse environment and for the Metaverse environment**

2ND TRANSNATIONAL MEETING

The organisations involved in WAKE UP, had the opportunity to meet each other in **July 2023, in Athens – Greece**, in a meeting which was hosted by the partner organisation XENIOS POLIS.

This meeting provided the opportunity for the consortium to introduce their discuss in person all the tasks that have been already carried out by the consortium, while it was agreed the workplan and the timeline for the upcoming activities in the context of the work packages **WP2- Developing a framework to rise awareness on the metaverse, WP3- Creating the virtual platform for wake up and WP4- Dissemination and Exploitation**. The **2nd transnational partners' meeting is scheduled for the 16th of April 2024, in Rotterdam, Netherlands**.

WHAT ARE WE DOING NOW?

The WAKE UP consortium is currently working on the development of Work Package 2 – Best practices with the aim at helping the readers (include people with less resources or less capacity) understand how they can benefit from the opportunities offered by the metaverse by reading other users' experiences regarding.

In the meantime, the partners develop their piloting sessions and dissemination event with the purpose to show off the idea of the METAVERSE as well as the results from the project implementation.

What do the participants think on the Metaverse? Stay tuned to the next newsletter to keep informed about the outcomes.
