

Name: Skills for Wellness – Enhancement of VET offers in the wellness sector

Date of Launch: April 2020, Nicosia, Cyprus

PRESS RELEASE

The "Skills for Wellness" is a KA2 Erasmus+ coordinated by Volkshochschule im Landkreis Cham e.V. (Germany) and involving 6 European partners ([Volkshochschule im Landkreis Cham e.V.](#), [Satakunnan Koulutus kuntayhtymä](#), [Civiform societa cooperativa sociale](#), [confederacion espanola de centros de ensenanza asociacion C.E.C.E](#), [M.M.C Management Center Limited](#)) among whom MMC from Cyprus. The project aims at designing transnational sector-wide occupational standards for professions at wellness sector and developing and assessing competences of employees.

As the Covid-19 situation got better, the partnership had the opportunity to have the **4th transnational meeting**, in-person, on the **26th and 27th of October 2021** in Madrid, Spain. The partners discussed the timetable of the project and proposal of the project's extension for 3 months in order to finalise all activities according to the project application.

The meeting was a great opportunity for an extended discussion on the necessary changes in the training resources and the assessment tools, in order to create materials, which follow the same structure, based on the recommendation from the piloting as well as a revision done by Civiform societa cooperativa sociale and Volkshochschule im Landkreis Cham e.V.. It is worth mentioning that the main focus as concerning the skills that should be included in the different units of the training resources, is on **ICT skills, green skills, foreign language skills and special needs of customers.**

Finally, the partners discussed the structure of the multiplier events that are soon going to organize in order to transmit the results of the project.
