Project progress

Since our second newsletter, the dTour partnership finalized the second Intellectual Output of the project, the Occupational profile of the dTour adviser. The Occupational Profile has been designed through a programme of development activity in the dTour partnership, supported by the analysis of data gathered during the previous stage of desk and field research, including stakeholder consultation.

The Occupational profile of the dTour adviser is defined by a detailed description of the range of competencies required in order to perform the role of the dTour adviser effectively, that is to advise and promote the digital opportunities within Hospitality and Tourism SMEs

Meetings

Since our previous newsletter, our partnership held an online progress meeting where a recapitulation of the results of the first Intellectual Output were presented and the roadmap for the development of the Occupational Profile was designed and discussed among the participants.

Additionally, an online workshop was also held, led by RINOVA, in order to support the development of the Occupational Profile. The next meeting is scheduled interpersonally during January in Cyprus.

The slide displays logos for DIMTRA, ESM, and dTour. The main content is organized into two columns under the heading 'The SKILLS and COMPETENCIES'.

The SKILLS and COMPETENCIES	
Basic digital skills	Communication skills
Enhanced digital skills (new digital technologies) in the sector	Local knowledge about the tourism/hospitality sector
E-tourism marketing skills (plan development, a marketing and a learning plan, campaign development)	Perception and knowledge of eIT
Social media marketing skills	Creativity
	Flexibility and adaptability
	Problem solving
	Team working
	Business spirit

The 'dTour adviser' Occupational Profile

The 'dTour adviser' Occupational Profile is comprised of the following seven occupational domains:

1. Diagnostic and Action Planning: the dTour adviser is able to use tools and diagnostics to identify strengths and weaknesses and how digitalization can improve hospitality and tourism SMEs
2. Using Digitalisation for Improving Business Networks: the dTour adviser is able to support the SMEs in the use of technology to develop their business networks
3. Finding New Customers: the dTour adviser knows digital solutions that could contribute to finding new customers and expanding the business
4. Improving Customer Experience: the dTour adviser is able to advise SMEs in order to improve customer experience
5. Improving Quality through Resource and Staff Management: the dTour adviser is able to know how the quality of the product or service being offered can be enhanced using technology
6. Option Appraisal: the dTour adviser is able to understand the current products and applications available in the marketplace as well as predicted market trends and upcoming solutions
7. Internationalisation: the dTour adviser is able to identify how technologies and digital solutions can meet the needs of many users including across partner countries

What's next

After the completion of the 'dTour adviser' Occupational Profile, the partnership will continue to the development of the dTour modular course. The course includes the curriculum and the training material that will support the training for the dTour adviser.

The development of the course and the training material will be led by DIMITRA Education & Consulting and will be modular, blended-learning and uploaded on e-learning platform. The training will also conclude to a certification for the dTour advisers.

We continue to work together on the project. If you need more information or wish to contact us for participation in the project, please check our website <https://dtour.projectlibrary.eu/en/> and our Facebook profile page @dTourEU
