

PROJECT DESCRIPTION

EMSA is an Erasmus+ co-funded program that will last for 3 years. It aims to empower learners and entrepreneurs by providing them 2 programs:

- Entrepreneurial Mindset Skills based on ENTRECOMP Model.
- Essential key skills based on European Reference Framework.

Both programmes and training materials will be validated by ISO based on assessment tools that will be developed during the program. The materials will be built upon the European qualification framework Level no.5 equip the youth with significant entrepreneurial competencies and enhance their employability.

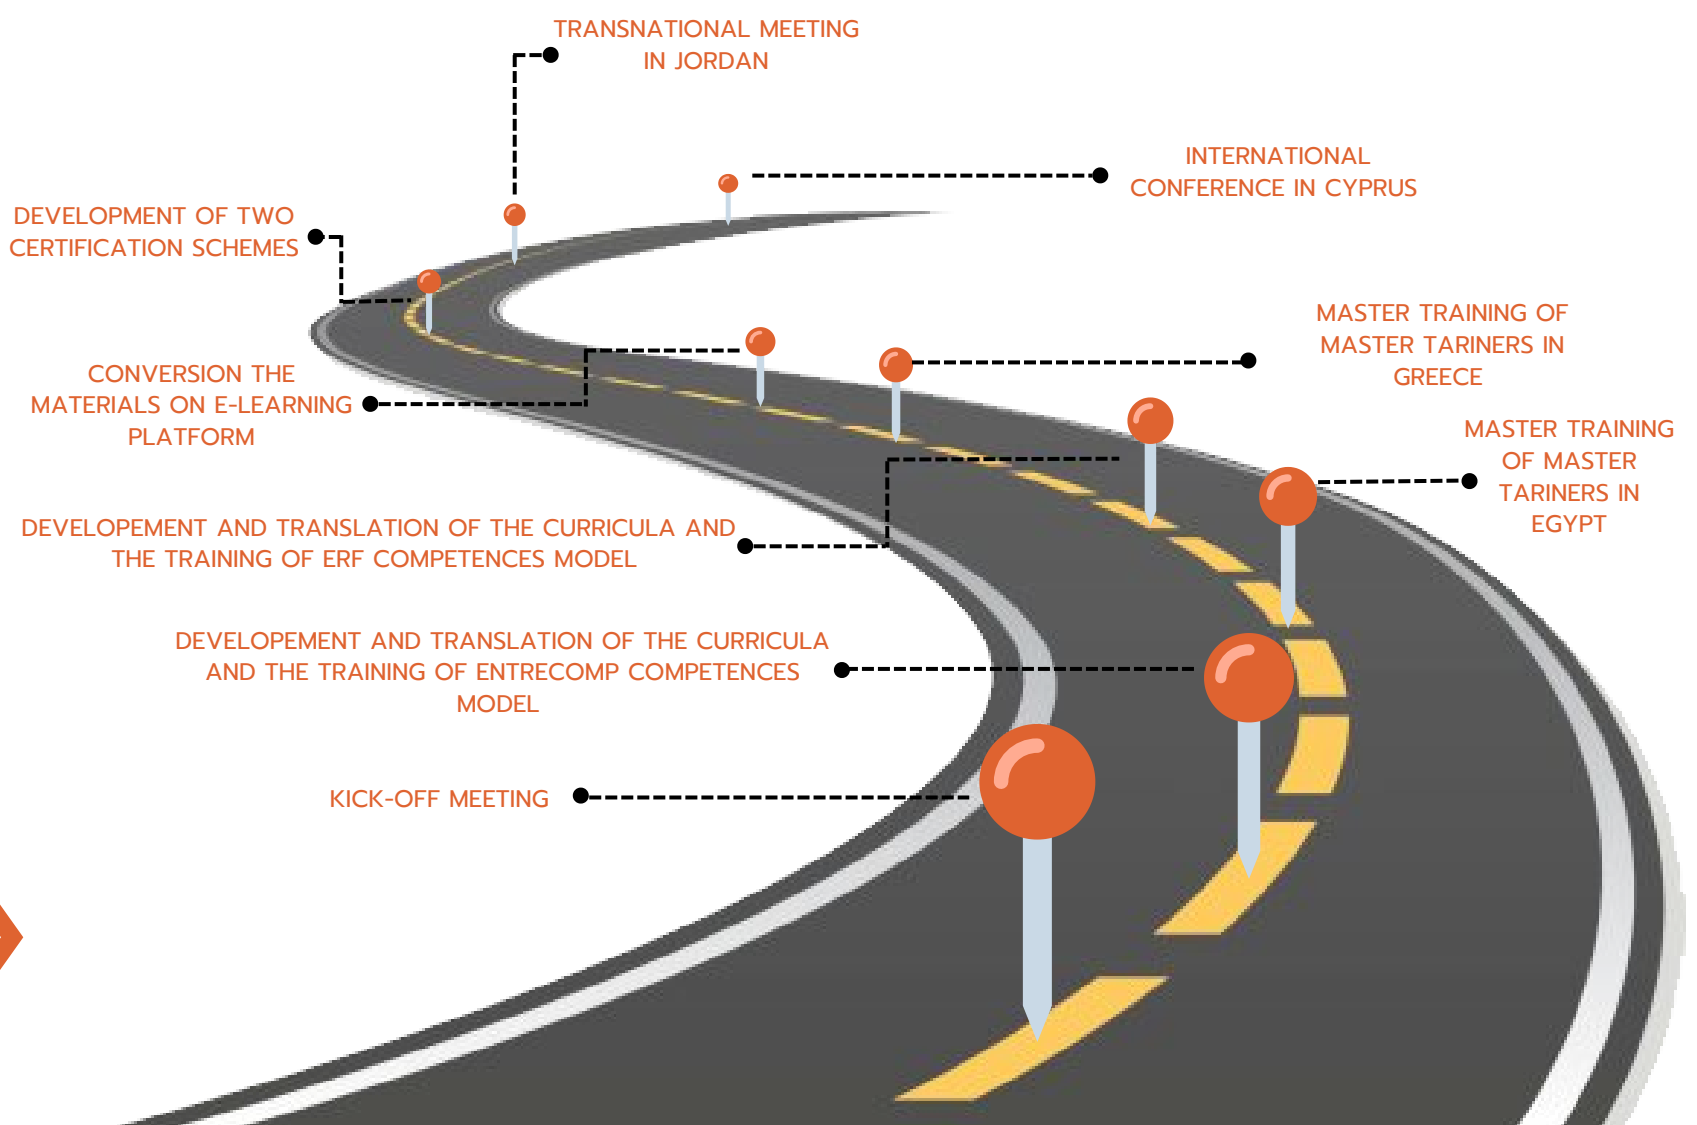

OBJECTIVES

- 1 Develop a curriculum, materials, qualification framework and digital methodological tools for trainers that analyze, design, develop, implement, and evaluate online training.
- 2 Develop a digital assessment tool through which trainers will be able to take the assessment and achieve the ISO17024 qualification.
- 3 Develop a digital resource centre networking tool for the trainers to use along with multimedia guide and best practices guide to deliver better online learning journey
